-
- The screenshot shows the 'Options' dialog in the Delphi IDE, specifically the 'Library' section. The left sidebar lists various IDE options, with 'Library' selected and highlighted by a red arrow. The main pane displays settings for the 'Selected Platform' (Windows 32-bit). The 'Library path' field contains a complex path with environment variables, and the 'Package output directory' field contains '\$(BDSCOMMONDIR)\Bpl'. Other fields like 'DCP output directory', 'Browsing path', 'Unit scope names', 'Debug DCU path', and 'HPP output directory' are also visible. Red arrows point to the 'Library path' and 'Selected Platform' fields.

2.2. No Library Path adicionar a pasta src do Basic-Auth

2.3. Fechar e Abrir o Delphi
